

	Carrier Type	Description
Resin Based		
Colormatch® DR Series	Urethane	Consists of polyether polyol-based pigment dispersions. 100% Solids.
Colormatch® RV Series	Plasticizer	Phthalate plasticizer-based pigment dispersions. 100% Solids.
Colormatch® AD Series	Amine	Standard paste pigment dispersions for polyurea applications.
Colormatch® ED Series	Epoxy	Standard epoxy-based paste pigment dispersions. 100% Solids.
Colormatch® EDC Series	Epoxy	Epoxy-based low viscosity high compatibility dispersion with surfactants and other additives.
Colormatch® AC Series	Alkyd	Standard alkyd-based paste pigment dispersions.
UCD™ PS line	Silicone Intermediate	High quality pigment dispersions for silicone or silicone-modified coatings. 100% Solids.
UCD™ SF line	Unsaturated Polyester	Pigment dispersions for gel coat, solid surface, casting & molding, and UV curable systems. 100% Solids.
Water Based		
Colormatch® Universal Water 990 Series	Water	Highly compatible zero VOC and glycol free water- based pigment dispersions.
50-9400 Series	Water	Aqueous pigment dispersions based on an amine dispersed acrylic carrier vehicle.
SynerMix™ 77-0901	Additive	Water-based pigment dispersant, designed for use with the 50-990 Series. Tailored specifically for dispersing titanium dioxide and other inorganic pigments.
SynerMix™ 77-0902	Additive	Water-based pigment dispersant, designed for use with the 50-990 Series. Tailored specifically for dispersing organic pigments.
UCD™ E line	Alkali-soluble Acrylic	Highly compatible zero VOC and glycol free water- based pigment dispersions.
UCD™ Q line	Alkali-soluble Acrylic	Highly compatible conventional water- based pigment dispersions. Contains Glycol Ether EB as a co-solvent.
UCD 2148Q	Additive	
Solvent Based		
Spartacryl PM™ 60 Series	Acrylic	Solvent-based pigment dispersions based on a widely compatible acrylic resin and PM acetate solvent.
UCD™ HS line	Hydroxy-functional Acrylic	Solvent-based pigment dispersions based on a hydroxy-functional acrylic resin and methyl amyl ketone
UCD™ MDS line	Proprietary blend	Solvent-based colorants designed for medium duty applications. Contains an exempt solvent (t-butyl acetate) as the primary solvent.
UCD™ V line	Acrylic	Solvent-based pigment dispersions based on a unique acrylic resin and PM acetate solvent.
UCD 2106N	Additive	Solvent-based additive to improve slip, mar, and pigment suspension
UCD 2226N	Additive	Solvent-based flatting paste
UCD 2360N	Additive	Solvent-based Bentone paste used for creating thixotropic gels in organic liquids
UCD 9844N	Additive	Multipurpose solvent-based flow additive to improve sag resistance and pigment suspension
