Wax - Siliconyl Beeswax (163P)

Koster Keunen, LLC

Waxes of Superior Quality Since 1852

Authorized Distributor:

Description:

Siliconyl Beeswax is a very convenient way to incorporate silicone into formulations. The silicone ester of beeswax eliminates the tendency of blooming in silicone oils, thereby increasing the stability of formulations. Siliconyl Beeswax also reduces the tackiness

of these ingredients, and imparts a silky feel to the skin. Siliconyl Beeswax is highly compatible with most other cosmetic ingredients.

Note: Specific product application recommendations are available on request.
